OBJECTIVE

Enthusiastic and detail-oriented Full Stack Java Developer with hands-on experience in developing dynamic web applications using Java, Spring Boot, Spring MVC, MySQL, JSP, REST APIs, HTML, CSS, JavaScript, and Bootstrap. Proficient in building scalable applications, implementing secure authentication, integrating payment gateways, and developing role-based access control systems. Strong understanding of object-oriented programming, database design, MVC architecture, and RESTful web services. Passionate about writing clean, efficient, and maintainable code while continuously learning new technologies and contributing to high-quality software solutions.

INTERNSHIP

Java Full Stack Developer Intern Sep 2024
Riyality Software Services Sangola, Maharashtra

- Developed and maintained multi-layered Spring MVC applications using Controller, Service, DAO, and Entity architecture.
- Implemented complete CRUD operations for a Hospital Management System using Spring Boot and MySQL.
- Designed and tested RESTful APIs using Postman, validating request-response flows and endpoint functionality.
- Worked with MySQL databases, writing optimized queries, joins, and relationships for efficient data management.
- Gained practical exposure to Microservices architecture, service communication, and application workflow design.
- Collaborated in an Agile development environment, participating in code reviews and iterative feature development.

PROJECTS

e-Grocery Web Application | *Java, Spring Boot, MySQL, JSP, Razorpay API*

- Integrated Razorpay Payment Gateway for secure online payment processing with transaction verification.
- Implemented OTP-based Email Validation to strengthen user authentication and account security.
- Designed Role-Based Access Control (RBAC) for Admin, Farmer, and Delivery Boy modules with dedicated dashboards.
- Built a responsive user interface using JSP and Bootstrap for seamless cross-device accessibility.
- Designed normalized MySQL database schemas supporting orders, inventory, users, and delivery management.

Employee Management System | *Java, Spring MVC, JSP, MySQL, Bootstrap*

- Developed a web-based Employee Management System to streamline employee onboarding, record maintenance, and administrative operations.
- Implemented complete CRUD functionality with Spring MVC and MySQL for efficient employee data management.
- Added form validation, exception handling, and search capabilities to improve data accuracy and user experience.
- Designed a responsive user interface using JSP and Bootstrap, ensuring seamless accessibility across devices.

College Management System | *Java, Spring MVC, JSP, MySQL*

- Developed a centralized web application to manage students, faculty, courses, admissions, and academic records.
- Implemented complete CRUD functionality using Spring MVC and MySQL for efficient data management.
- Designed an MVC-based architecture with database integration to ensure scalability and maintainability.
- Improved administrative efficiency by automating student registration, course allocation, and record management processes.

Portfolio Website | *HTML, CSS, JavaScript*

- Designed and developed a responsive personal portfolio website showcasing projects, skills, and professional experience.
- Implemented modern UI components and responsive layouts to ensure compatibility across desktop, tablet, and mobile devices.
- Integrated project showcases, GitHub repositories, resume download, and contact information to enhance professional visibility.
- Optimized website performance and user experience through clean UI design and structured navigation.

Education

Fabtech Technical Campus, Sangola (DBATU) 2021 – 2025
B.Tech in Computer Science & Engineering CGPA: 8.0 / 10.0

M.V. High School & Jr. College 2020 – 2021
Higher Secondary Certificate (HSC) Percentage: 77%

CERTIFICATIONS

Full Stack Java Development Certification – Riyality Software Services, Sangola
